

- Panel Lighting

Features

- Angular Corner Type
- Brightness and Color Temperature Control
- Radiation Less the UV and IR
- Optimal Thermal Design for Long Life
- Built-in SMPS with High Efficiency and Constant Current

- LED Tube

Features

- Replacing 40[W] Fluorescent Lamp
- Ballast Type
- Radiation Less the UV and IR
- Optimal Thermal Design for Long Life
- Built-in SMPS with High Efficiency and Constant Current
- In Compliance with IEC, JIS and UL

- Bulb

Features

- Replacing 4 Existing Halogen Lamp without any modification
- Radiation Less the UV and IR
- Optimal Optical Structure for Light Angel
- Optimal Thermal Design for Long Life
- Built-in SMPS with High Efficiency and Constant Current

- RGB Color Matrix Kit

Features

- Easy to install the Big scale Commercial Sign-Board
- Representation for More than 10,000 colors
- Easy to Display the Character with Creative Techniques
- Waterproof and Dustproof Structure
- Optimal Thermal Design for Long Life
- Double-Circuit in each Kit to prevent a full breakdown
